

## Think in Cool

Dr. Meera Vasani\*

Where, when, how this came Who, whom why gift-wrapped.  
A pandora box; an unique name  
Starts with nose; captures the throat;  
Rules sensory organs  
Beloved lungs becomes abode Puffs up  
makes it watery balloons.

Know not from where it comes But  
loves the master piece, And hugs  
them firm.  
No tech no scifi,  
Comes to help  
Vaccine- just a wild guess.  
Piles n piles of corpse lay  
Dozens on artificial air.

Where to go n how to escape Hide n seek is the game.  
Better to hide behind a mask  
Better to lock in our abode Ignoring this you rent them free Your lungs  
with breathlessness.

Time now to think in cool  
How, what is achieved??  
Definition of success needs a change Why  
have we come n what is fame?
