

*Spendthrift love**Kapardeli Iftichia*

*Sun lot
 Homeland seed
 in my heart, took root

*Dress poverty
 of the world
 new truths obscures
 the world
 wasteful love
 tormenting darkness

*My people are hungry
 not rest
 It is not quiet
 poor and lowly
 bloody flowers
 land*

Tender stalks

*Scrolls soul
 and a rainbow flirt
 Steal small breaths
 I escape to the Angels
 beauty, mercy
 and love
 left on earth
 outfit imperishable
 and tender kiss on her body
 clear water source
 for dry lips*

*In the eyes planted
 roses
 imprisoned for your dream
 horizons golden touch
 forgetfulness, fear
 Irises in transparent love
 Hebe
 tender stems*

Hai

*A loving blue body
grows taller in the heart of the sky
spent*

*The wind in violent
downpour with circles
voice grows*

*Without forgiveness friends
traumatized in shedding
of fireflies*

Swan Summers

*Swan Summers
full of love
I lover of love
and mortal together

*Cells of
beautiful trip
wounded by rose petals*
