Captured in my passion, sinking in my tho't  
Let me awake my Master, far from here bro't  
Imprisoned me from worldliness, serve the Blue  
Guide my ways which leads me to you.  
Spread your arms take me in your lap  
Cling me to you should be there no gap  
Be my charioteer show me my path  
Burn my deep evils become my hearth  
Straight are your ways, but I am in zig zag  
Thurst your lighten dagger let my heart's rag  
Build my base , on which I can stand  
Tighten your embrace , on which I depend  
Let me one you never depart to your soul  
Let me your part Master, let me your whole.
