THE POINT is... you need not to make a point,
every time you put down a point.

The Point of making a point is not just merely
making a point, but having a point.

THAT POINT OUTS THE POINT .

Pointing out that one needs to make a point,
To make a point; is itself so pointless.

THAT'S THE POINT OF MY POINT .

So stop *pointing out* that there need to be a point,
for every point I make.

So that's the point of *My Point*.

GOT MY POINT ???

The Light

Lurking around silently,
Waiting to make it's move.
There lies "*The Darkness*",
Trying to get into the groove.
Sparks in her soul , busting all the fouls.
Bruises on her heart , howling out the sorrow.
Spirit within her calming down "The Groan".

DEFYING DESTINY.

CHASING THE LIGHT.
